

B145 FAB CLEAN

LABEL INSTRUCTIONS

Product Description & Directions for Use:

A delicate blend of biodegradable surfactants formulated for general use in hot water extraction cleaning of upholstery fabrics. Fab Clean has a mild pH of 8.5 and subject to pre-testing, is safe for use on most wet cleanable colourfast fabrics.

For professional and industrial use only.

Thoroughly dry vacuum fabric before wet cleaning procedures.

Portable machines: Dilute 15ml of Fab Clean per litre of warm to hot water (1 to 65) in the machine solution tank.

Truck-mount units: Mix 1 litre of Fab Clean with 4 litres of water (1 to 4) to make metering concentrate. Set flow meter at 2 to 4 GPH (1:100)

Always pretest fabric in an inconspicuous area with ready-to-use solution, for colour fastness and possible colour or texture change before proceeding.

If colours bleed or colour change occurs, test with B109 Fibre & Fabric Rinse and use accordingly.

If texture change occurs or fabric is sensitive to water, dry clean only.

Precondition heavily soiled areas with B108 Fabric Restorer or B107 Prespray Gold, according to label directions.

Extraction clean using a fine jet upholstery tool, with even over-lapping strokes.

Lightly spray clean fabric with B109 Fibre & Fabric Rinse solution, then finish with clean white towel.

- Low foam upholstery cleaning concentrate for hot water extraction machines.
- For use on wet cleanable colourfast fabrics.
- Contains a unique blend of low foam biodegradable surfactants.
- Turquoise liquid with green apple fragrance.

pH Concentrate: 9.5

pH Diluted: 8.5
