

CONTRACT CARPET DEFOAMER

LABEL INSTRUCTIONS

Product Description & Directions for Use:

Contract Carpet Defoamer is a concentrated silicone anti-foam agent which can be added to hot water extraction machine recovery systems to control the build up of excessive foam.

For professional and industrial use only.

Add 40 ml of Contract Carpet Defoamer concentrate per 10 litres of recovery tank capacity (1-250).

Dilute the required amount of concentrate in a small amount of water and feed this solution into the vacuum hose, with the vacuum motor switched on.

For upright extraction machines with no vacuum hose, add pre-diluted Contract Carpet Defoamer directly to the waste recovery tank.

Repeat above methods of defoaming after every emptying of the waste recovery tank.

Do not add Defoamer to the cleaning solution.

Do not apply Defoamer directly to the carpet.

For excessive foam, increase the amount of Contract Carpet Defoamer required

- Concentrated economical anti-foam agent for carpet extraction machine recovery tanks.
- Off-white liquid with mild odour.

pH Concentrate: 8.0

pH Diluted: 8.0

Keep out of reach of children.
